Brent is an avid sports fan and "Halo" nut. Sometimes traveling out of state to watch his beloved L.A. Kings play hockey. He also has a soft spot in his heart for the Boston Bruins. Brent is also a "Gym" dad as his daughter Cecilia has won awards and climbed the rankings in the local Los Angeles gymnastics scene. Still only nine years old she aspires to represent the USA at the Olympics and Brent knows the struggles and joys required to keep her dream alive. As co-owner and President of ProSolutions Software, Inc. Brent has been an integral part of the success of the company since the Wiggins brothers purchased it back in '05. Heading the programming and development department is a 25 hour a day job and he still finds the time to meet his other responsibilities around the office. Thanks to his dedication PSI will be around for many many years successfully delivering the most powerful and cost effective software in the industry.
